Capability Statement

Summary

Northern Wings Manufactures, Repairs and Distributes a wide variety of Aerospace, Military, and Commercial parts. Our distribution division provides all manner of in-stock spare parts, equipment, and supplies. Our manufacturing division specializes in low-volume high quality build-to-print production. We are a Native American, Service-Disabled Veteran Owned Small Business.

Functional Area Capabilities

Parts and Material Support – We provide quality material and spares to our customers for all commodity types.

Manufacturing – We manufacture built-to-print components and assemblies with up to 7 axis capability for the Aerospace and Defense markets. We also provide prototype consulting and production for custom vehicles and military and commercial parts.

Repair Management – We manage repairs through our network of licensed FAA 145 Repair Stations and OEM support facilities.

Active Anti-Counterfeit Parts Program - Second to none integrated methods to ensure no counterfeit part is delivered. Ever.

24/7 AOG Support - In place and ready to respond around the clock.

Program Management – Northern Wings provides Program Management solutions for supply chain, asset refurbishment, and logistics.
